

LEBKUCHEN WELT

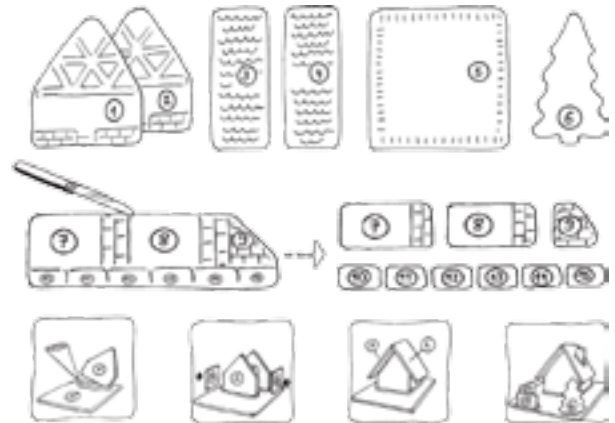

mit Liebe gebacken

Prepare sugar icing a mixing bowl, whisk and keep adding icing sugar until the icing is firm enough to use for decoration. Now use the sugar foam to stick the individual pieces of the Witch's House together in the correct order, as shown in the pictures.

Please note: The side pieces (pieces 7 and 8), chimney (piece 9), shutters (pieces 10 to 13) and garden fence (pieces 14 and 15) are to be cut from the template piece using a knife. Shutters (parts 10 to 13) are placed to the left and right of a window that you can create using sugar foam, for example, and are attached using sugar foam. The chimney (piece 9) is affixed to the roof. If necessary, you can use toothpicks to hold the pieces in place until the sugar foam has dried. Please be sure to remove them once the sugar foam has dried. The main structure is now finished. Next, you can begin decorating the house with fruit gums or any other colorful candy.

Congratulations – your house is finished. We are certain that you and your children will have lots of fun with the Witch's House from Lebkuchen Welt.
